

PB0800RN60

The PB0800RN60 is a 600mm retrofit handle with a holding force of 800kg. This is a new architectural handle which ensures high security electromagnetic locking without any reduction for retrofit to existing doors.

The BO Series is a new profiled architectural handle, which ensures high security electromagnetic locking without any reduction in door width or height. The new design allows for fast installation and is ideal for retrofit to existing doors.

It offers a greater holding force, as multiple electromagnetic locks can be used - increasing the security and strength of the locking.

Overview

- NF S 61-937
- Ultra-quick installation
- 600mm handle
- Pre-drilled sections (adjustable)
- Width overlapping the previous installations
- Terminal block

PBO800RN60 - Technical Specifications

Product Specifications

Holding force: 2 x 400kg

Electrical Specifications per magnet

Operating voltage: 12V to 24Vdc

Current: @12Vdc = 550mA, @24Vdc = 275mA

Dimensions

Dimensions: 600 x 126 x 68mm
